

NAGIGIA ISLAND RESORT

KADAVU, FIJI

Nagigia Island Resort Newsletter May 09

Surf in May has been good – with 2 x 10 foot swells and many good days in between these massive swells testing the ability of our guests.

Good offshore days and some tradewind days.. this is not a problem for King Kong Left as its side offshore in trades and we always get a surf in.

There are many inside breaks including daku rights that are easy to surf on longboards and have their days for shortboarders too.

We can cater to learners and beginners on these inside breaks, there is a left at soso beach and a right at daku great for beginners.

Nagigia has awesome Game Fishing and one of our recent guests James caught a 70kg Marlin on his first fishing expedition ever !!

See the whole thing on video here:

<http://www.youtube.com/watch?v=Sd-m6QCXmss>

We have also just launched into our own GT Popping program and have had Damon from Nomad Sportsfishing out here on Nagigia checking out the potential and from all accounts after landing a couple of 15-20kg specimens we would have to say Nagigia has great GT action !
